

## QASource Featured in Gartner's 2017 Market Guide for Mobile Application Testing Services

PLEASANTON, California, July 20, 2017 - [QASource](#), one of the world's leading software QA services providers, has been featured in Gartner's 2017 Market Guide for Mobile Application Testing Services.

"Making sure that we have the state-of-the-art labs to support our clients in mobile testing is important to us," said Rick Rampton, Head of Client Success for QASource. "Mobile is one of our strategic initiatives. We are excited to be part of Gartner's prestigious report on this market."

Published on June 28, the 26-page guide is [available for paid download](#) from Gartner, Inc. The guide includes key market findings, recommendations, market trends and analysis, and a global listing of 35 representative testing vendors - including QASource as a pure-play testing service provider.

According to the report: "Mobile applications are increasingly the most important channel to interact with clients and end users in a digital economy. Sourcing and vendor management leaders need to navigate through the complexity of selecting a mobile application testing service provider most suited to meet business needs."

[Gartner](#) (NYSE: IT) is the world's leading research and advisory company. The company helps business leaders with the objective insights they need to make the right decisions.
